About This Content

Do you know what it feels like to spawn a god? Are you sometimes too old for this mon-keigh excrement? Are the Orks on your lawn? Then the Mael Dannan pack increases the enjoyment of you and your friends in beautifully eviscerating and artistically executing any filth that stands in your way. The Mael Dannan Pack of weapons and armour for the Eldar Faction includes four items among the rarest that will turn your mind onto one thing - mael dannan – total and merciless extermination! These are visual customizations; they do not give any advantage beyond looking exquisite while freeing your enemies of unnecessary limbs. Since they're dead already.

The Silver Shuriken Pistol and the Silver Avenger Shuriken Catapult are only available in this DLC pack on Steam. The Ancestral Heavy Aspect Armour and its Right Shoulder are also available in the in-game store. They are only for Eldars.
